Table of contents

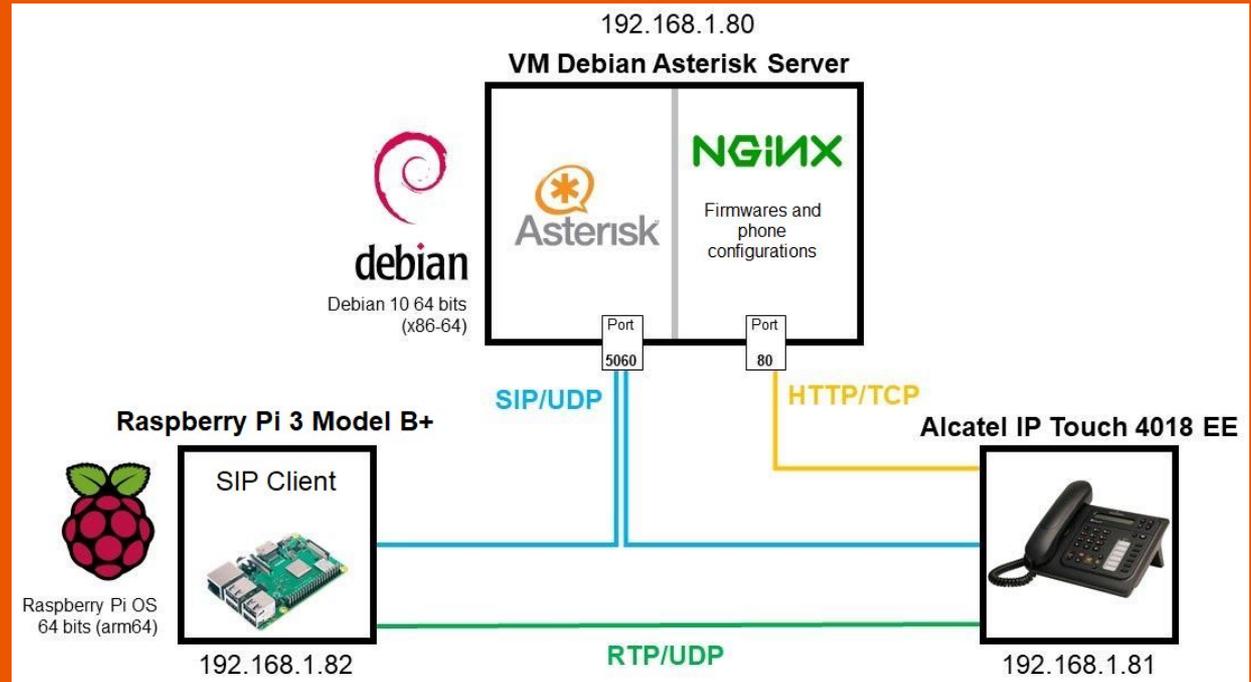

Introduction

1. SIP protocol and VoIP communication
2. Implementation of an Asterisk IP PBX server
3. Installation and configuration of a SIP client on the Raspberry Pi
4. IP phone configuration
5. Demonstration
6. Preparation for the SIP client program in JavaScript
7. WebRTC/SIP Demonstration
8. SIP client program in JavaScript

Conclusion

References

Aim of the project

1. SIP protocol and VoIP communication
